

# TYGAR Testimonials

## What our Customers Say about us!

I just wanted to take the time to thank you and your staff for the great job they did with us. I was very impressed with the service we received and how organized everything was, right from the first call to the hand shake good-by, everyone was friendly and professional and it was our pleasure coming here to do business with you.

Great Job Guys! Thank you.

I just wanted to send another thank you for how quick you guys responded to my problem with the tight radius curves yesterday.

We finished that job today, and as I was packing up the trailer when my customer came up to me and handed me the check and told us that our curbing was like his first tattoo. Once he got the first one he had to have some more done. He was so happy with the work that he said we will be back before the end of summer to do the rest of his yard. His wife pulled up just before I was getting ready to leave and her comment was: "we have lived here for 6 years and done a lot of improvements to our home but this is by far the best improvement we have made! Thank you so much, it is beautiful!"

I really enjoyed getting the check ...and to have a customer that was that excited about what we had done, made my day! That job came out so well because you guys responded to my question so quickly! I bought Tygar because my gut feeling told me your company was the right choice!

My gut feeling was right! It is so nice to deal with a company that helps so much after the sale is done. Please be sure to tell Jim how much we appreciate his help and what a difference it made this week.

I have to let everyone there know that the equipment is working great!! Another thing that has helped with our success is the support that I get when I call TYGAR and speak to someone there. My calls have been few but when I called I got help immediately, Thanks to all of the TYGAR team for the help.

Just a short note to say how happy I am with the Tygar equipment. It's been over three years since I purchased my Tygar curb package and I'm very happy with it. I've found the curb machine and sod cutter to be very sturdy, they just keep going day in & day out and require very little maintenance.

Tygar is an excellent choice for anyone wanting to start a curbing business or for an established curbing business needing new equipment and the Tygar staff are always very helpful and supportive.

Thanks again to everyone at Tygar.

To the TYGAR crew, I just wanted to extend a thank you for the exceptional experience that I had working with TYGAR Mfg. from the first phone call, through training and even today my experiences have been phenomenal. The way that everybody works together as a team is a great inspiration and a prime example of what a business is all about. The customer service matches the product in which you sell and truly puts you in a league of your own. As you know I have been curbing for a few years prior to purchasing your equipment. After I had purchased my original equipment I had a training program to attend and after leaving that program I had many questions left unanswered and even today I have had no luck getting them answered by that company. After attending your training my questions have been thoroughly answered. I look forward to a long career in the curbing business and an even longer relationship with TYGAR Mfg. Again, I thank you and feel everyone involved deserves great praise. Take care and have a great day.

I was first introduced to the curbing industry at the Expo in Louisville, Kentucky in 2005. I visited with 3 curbing companies there and after a couple of visits with each one after the show, I was much impressed with the honesty and openness of the guys from TYGAR. I met them face to face and learned that they were genuinely interested in my success. A month later, following much soul searching and research I went with TYGAR. The equipment is excellent and the service has been even better. They were very patient with me and I was impressed with their willingness to get me all the information I needed. I made a great decision to go with TYGAR!

Hey, just wanted to first thank you guys for an informative training session last week. We really appreciated everyone's desire at TYGAR to be as informative as possible with new people like myself in getting into this business. We walked away feeling very excited and more sure of ourselves than if we would of tried to learn this on our own. So, tell everyone thanks for their time and help.

We are doing great! We have had great response from the home show and have had repeat business from every job so far. We anticipate lots of growth for our business. We just can't say enough about how pleased we are with the equipment and training we received from you guys. We are so glad we went with TYGAR and will be happy to recommend you to anyone looking to get into the business. Who knows, maybe we will be back in a year or so to purchase another package?
