

Landscape Curbing Company Tygar Manufacturing Introduces CurbingLocator.org

CurbingLocator.org is a new online directory designed to help homeowners and businesses find qualified local landscape curbing contractors.

Ball Ground, GA ([PRWEB](#)) September 28, 2008 -- Tygar Manufacturing (TM), LLC, the leading manufacturer of turnkey decorative curbing equipment for the landscape curbing industry, announces a new online directory designed to help homeowners and businesses find qualified local curbing contractors. The site, www.CurbingLocator.org, is unique in that it quickly and easily brings together the industry's best curbing contractors with those needing landscape curbing, without cost to either. The sole purpose of the site is to build awareness of the advantages of concrete curbing and promote business for the most qualified curbing contractors. Designed as a zip code search engine, the site can also search cities and states for all continental US and Canadian locales. Though many communities in the US and Canada have few, if any, curbers, the site attempts to bridge the gap between demand for curbing and the providers. As a free site, homeowners and businesses only need to access www.CurbingLocator.org, fill in their zip code, then contact the resulting curbers as they wish, either by phone or email. All contractors in the directory are Tygar Certified Curbing Contractors, having received training and support from Tygar, and they generally will provide quotes and consultations free of charge.

Although primarily a search directory, CurbingLocator.org also works to promote the industry with a vast gallery of curbing photos, a FAQ's section, and a page on news and links related to curbing and landscaping. If visitors are seeking more information on the curbing industry or equipment, they can click on "Curber's Corner" to find pertinent assistance and links.

Tygar Manufacturing, [Complete Landscape Curbing Equipment Packages & Solutions](#)
Tygar continues to be the leader in landscape curbing equipment solutions for contractors, and the development of CurbingLocator.ORG is further evidence of this. The site is the best choice for those seeking qualified curbing contractors, and it will further support the growth of decorative curbing. For more information on www.CurbingLocator.org or Tygar, call us at (888) EZ-TYGAR, or visit tygarmfg.com to request a complete information package and DVD on the curbing business.
