

PRESS RELEASE

August 26, 2008

**TYGAR MANUFACTURING, LLC™ announces the establishment of the first TYGAR distributor in Spain**

**TYGAR Manufacturing™, LLC**, the leading manufacturer of turnkey **decorative curbing equipment** for the **landscape curbing** industry, announces a new distribution relationship with Alicantina De Cortes (“Alicantina”), a leading provider of concrete construction services in Spain. With years of experience in the construction market, Alicantina is well qualified to represent TYGAR in select markets, both commercial and residential, throughout Spain and Portugal. The Spanish company will supply local contractors with TYGAR’s industry leading curbing equipment, curbing products and additives, as well as provide training and support. Both companies have committed to sending representatives across the Atlantic to help support, train, and supply the proper expertise to launch the relationship. Just this month, TYGAR has delivered the first container full of **Bengal TG1000 Curb Machines** and other curbing equipment to Alicantina’s location in Spain.

While TYGAR has sold into Europe for years, this new relationship marks the first of its kind on the European continent, and it exemplifies TYGAR’s continuing international expansion. In the past year, TYGAR grew its business in a number of foreign markets, including South Africa, Greece, Australia, Mexico, France, the UK, several Caribbean countries, and the Middle East. In addition, the company’s business more than doubled in Canada and new systems were shipped to Puerto Rico and nearly all 50 states in the US. Please visit [www.tygarmfg.com/international.asp](http://www.tygarmfg.com/international.asp) for more information on TYGAR’s international expansion.
