## **TYGAR MANUFACTURING, LLC™ to Grow Canadian Presence in 2010**

**TYGAR Manufacturing™, LLC**, the leading manufacturer of turnkey decorative curbing equipment for the landscape curbing industry, announces the opening of a new office in Medicine Hat, AB to service the western Canada market, plus expansion of other services throughout Canada. While TYGAR has been the largest provider of landscape curbing products and services in Canada for years, the company plans to further support the curbing community by offering integral color, decorative stamping products and other curbing additives through a network of Canadian locations. In addition, TYGAR will hold customer training programs in Ontario and Alberta this spring, with plans to expand locations in the near future. Each Canadian office (Simcoe, ON, Medicine Hat, AB, and Montreal, QC) will also hold curbing demonstrations for prospective new curbers throughout the year, and TYGAR's very popular advanced training seminars will be scheduled for ON and BC this spring.

TYGAR's Canadian team will be on site at trade shows in Toronto (Canadian Franchise & Business Opportunity Show, Metro Toronto Convention Centre, January 9&10) and Calgary (Landscape & Contractors Expo, Calgary Stampede, February 10&11), where they will hold live demonstrations of the *Bengal TG1000 Curb Machine*, the key component to any landscape curbing business. Canadian homeowners and businesses have been especially attracted to the practical and aesthetic qualities of this edging product, and decorative curbing is now found from Nova Scotia all the way to BC. Contrary to some concerns, the extreme freezing and thawing of Canadian winters do not adversely impact landscape curbing when utilizing TYGAR's proven method, which uses proprietary admixtures and processes to enhance the life of curbing in any climate.
