Introducing

# TYGAR's All New CurbCable System

Cable Reinforcement for TYGAR's Bengal TG1000 Curbing Machine

## The System

Cable holder effortlessly guides cable into curb

500 ft. of 1/8" Cable

Braided, galvanized cable for MAX strength

Tests prove it strengthens curbs

Prevents separation & extends life

Cost-effective advantage over other systems

Up-charge customers for stronger curb!

Easy to retrofit system to any Bengal Curb Machine

**Easy to Sell,  
Quick Set-up,  
Seamless to  
install!**

**Only for TYGAR's Bengal TG1000**

## The Market's Best System for Reinforcing Curb:

TYGAR's new CurbCable apparatus attaches to the Bengal steering assembly with simple wing nuts. Spools of 1/8 inch braided & galvanized cable fit perfectly on the CurbCable attachment, and a specially designed backlash prevention system allows the cable to be effortlessly fed through the machine at any speed. Proven to strengthen curb in any setting, residential, commercial, parking lots, etc.

*As always, TYGAR Advantage Customers receive Lifetime Support !*
