

PRESS RELEASE

February 27, 2009

TYGAR MANUFACTURING, LLC™ announces the launch of TYGAR Greece

TYGAR Manufacturing™, LLC, the leading manufacturer of turnkey decorative curbing equipment for the landscape curbing industry, announced the opening of its newest distributor, **TYGAR Greece**, serving Greece, Cyprus, and Bulgaria. TYGAR's Greek office will provide sales and technical support, live demonstrations, distribution of equipment and consumables, and training to customers throughout Greece, Cyprus and Bulgaria. The demand for extruded curbing technology, especially in the commercial sector, continues to grow rapidly in Eastern Europe. Though TYGAR has sold curbing equipment and supplies into the area for years, the company will greatly increase its presence with this office. The distributor will also exhibit at local trade shows and provide live demonstrations on-site. The opening of the Greek Distributor is yet another sign of TYGAR's commitment to serving that growing market. For local information, please contact Mr. Jimmy Awad Tarek, Polimorfi, SA, tel. 0030 23920 21515; e-mail: info@polimorfi.gr; web: www.polimorfi.gr.

With such a temperate climate, Greece and the eastern Mediterranean is one of the best locations for curbing contractors. With the ability to curb all year long, and the advantages offered by landscape curbing, operating a curbing business in the country is highly profitable. In addition, TYGAR's curbing enhancements, such as larger commercial molds, stamped walkways, lighted curb, and driveway liners, are widely sought there.

TYGAR has also recently introduced the first ever Driveway Liner Package, as well as innovative new mat stamps for curbing. With our landscape curbing equipment, landscape and concrete contractors can now offer customers attractive and practical driveway and hardscapes, such as Belgium block, driveway skirts, and inlaid stone surfaces. Utilizing TYGAR's exclusive processes and equipment, these aesthetic borders are extruded and stamped in less than half the time, and at a fraction of the expense, as other hardscaping methods. The process is very efficient and is generally complete in one day, including prep and clean-up.

TYGAR Manufacturing, Complete [Landscape Curbing Equipment Packages](#)

TYGAR provides the most complete turnkey landscape curbing equipment solutions for the contracting industry.
